

AT GARDENS CARE & REHABILITATION

Proudly introducing our optimized clinical program designed with the most critical of patients in mind.

Our goal is to reduce re-hospitalization, ED visits or observation status admits. We strive to improve quality of life through early symptom recognition and treatment.

- Pulmonologist-led program driven by 24/7 Respiratory Therapist
- Daily Respiratory Therapy Evaluations
- Pulse Ox & RR on every shift and PRN
- Family & Patient education for safe transition disease maintenance
- Goal length of stay of 18-20 days
- Short-term ventilator weaning services, as well as long-term ventilator and tracheotomy management on-site
- 24 newly-renovated sub-acute rehab rooms

140 Park Avenue | East Orange, NJ

973.677.1500
